Overview

Business owners turn to the Miami County Economic Development Department for valuable data clarifying the county's economic climate.

A central point of contact, the department provides confidential numbers detailing demographics, market profiles and employment indicators. Miami County's team works with business owners promoting managed business development and retention in an emerging area of the state.

Services

- Acts as a resource and referral center
- Recruits new businesses
- Assists businesses in starting and growing their business
- Provides hands-on workshops along with one-on-one business advising
- Acts as an intermediary with resource providers
- Prepares and distributes reports and research data on demographics, businesses, employment, market profiles, census data, workforce characteristics and available sites
- Provides maps and aerial photographs
- Provides technical assistance in areas such as marketing and business management

Committees

Tourism

meets alternating months on the second Monday at 10 a.m. in the department conference room

This group serves as a resource for staff providing information on activities and attractions within the County. Tasks include monitoring the impact of special events on the region, promoting events of regional significance, cross promotion of local events, exchanging ideas and resources and coordinating a regional promotion guide.

Farm Tour

meets as needed in the department conference room

This group serves provides direction and assistance in planning the annual Farm Tour. The tour is typically held Mother's Day weekend. Sites provide an educational experience for visitors while promoting the county's agricultural features.
