WHEREAS, the City Council of the City of Paola, Kansas, pursuant to the authority provided in K.S.A. 12-17, 114 *et seq.* wishes to adopt a plan to assist the revitalization of certain designated areas of the City of Paola; and

WHEREAS, the City Council of the City of Paola, Kansas, pursuant to public notice did hold a public hearing on September 14, 2004, to hear and consider public comment on the Neighborhood Revitalization Plan.

EXHIBIT A of Ordinance 2857

BEFORE THE GOVERNING BODY
OF THE CITY OF PAOLA,
MIAMI COUNTY, KANSAS

IN THE MATTER OF ADOPTION OF A NEIGHBORHOOD REVITALIZATION PLAN

REVITALIZATION PLAN

The Governing Body of the City of Paola, Miami County, Kansas pursuant to the Kansas Neighborhood Revitalization Act, K.S.A. 1994 Supp. 12-17, 114 et. seq., does hereby adopt a Neighborhood Revitalization Plan (herein sometimes called “Plan”) for the City of Paola as follows:

FINDINGS

This plan is intended to promote the revitalization of a portion of the City of Paola through rehabilitation, conservation, or redevelopment of the area in order to protect the public health, safety, or welfare of the residents of the city, and also protect and promote the sound growth of the city. More specifically, a tax rebate incentive will be available for certain improvements within the City of Paola area.

In accordance with K.S.A. 12-17,114 et seq., the City Council has held a public hearing and considered the existing conditions and alternatives with respect to the designated Area, the criteria and standards for a tax rebate and the necessity for interlocal cooperation among the other taxing units. Accordingly, the Council has carefully reviewed, evaluated and determined the area meets one or more of the conditions to be designated as a “neighborhood revitalization area/dilapidated structure.” As of September 14, 2004, the following conditions were noted:

(a) According to the 2000 census data, the City of Paola’s economic characteristics reflect a population where 45.2% earned less than \$35,000 with \$37,285 being the median household income.

(b) According to the 2000 census data, the City of Paola’s demographic characteristics reflect a population where 15.6% are over 65 years of age and 17.7% are over 62 years of age.

(c) According to information provided by the Miami County Appraiser's office, the Plan area, as defined herein, consists of 555 residential structures of which 123, or 22%, are classified as being in "Fair" or "Poor" physical condition for their age, as established by the Miami County Appraiser's office. In comparison, the balance of Paola, consisting of 999 residential structures, only 60, or 6%, have physical condition ratings of "Fair" or "Poor".

(d) The overall average (mean) appraised value of residential dwelling structures in Paola is \$107,900 according to the Miami County Appraiser's office. In comparison, the average appraised value of residential dwelling structures in the Plan area, based on a per-block average (old & newer homes), is \$72,800. However, over 40% of these blocks fall in an average value range from \$30,000 to \$69,999. This low range better reflects the general value and conditions in the Plan area. The per-block average for the Plan area is affected by a few larger more expensive homes, several new single family homes and duplexes, and a couple bed & breakfast structures.

(e) Within the Plan area, there are 11 east – west streets and 14 north-south streets. Of these streets, 22 have a need for pot-hole filling or minor resurfacing work; 9 are suffering from severe erosion or an inadequate surface and need significant reconstruction and/or resurfacing work done; and multiple sidewalks and curbs are broken, some almost hazardous, and missing in many areas. Several of these streets have only ditches serving as water drainage control, and are highly susceptible to erosion which ultimately can cause street damage.

(f) A large amount of the Plan area is populated with older commercial structures, and several older and deteriorated industrial buildings. The Park Square area, which is centrally located, serves as the historical epicenter and heart of the "small town charm" appeal that Paola possesses. Unfortunately, the attractiveness of this area has been diminished in the past with an average 15% vacancy rate, and a frequent turn-over in the mixed tenant base. With new businesses and commercial growth developing in a different section of the City, and when considering that the Park Square area buildings are suffering from wear and tear due to age as well as functional deficiencies, it is understandable that this area is constantly challenged with maintaining a position of economic viability.

(g) Due to some commercial and industrial properties located in the residential areas within the Plan area which is due to poor land use management in the past, this area suffers from economic obsolescence due to inharmonious land uses which has a negative impact on property values and area desirability.

The primary intent of the Neighborhood Revitalization Act is to provide the community with a long-term increase and stabilization in their property tax base by encouraging rehabilitation or new construction which might not otherwise occur.
