TO: Chairman Roberts and Commissioners, Miami County BOCC
FROM: Jim Kaup
DATE: October 6, 2021
RE: **Golden Incorporation; Categorization of Public Record Materials, by 17 Factors**

The petition to incorporate territory in north-central Miami County as the City of Golden was submitted to the County on April 9, 2021.

As outside counsel retained by the BOCC to assist in the consideration of the petition I determined the petition met the applicable statutory requirements, and so advised the County, by memo dated May 4, 2021.

Soon thereafter the County started to accept submissions from the public and others, both in support of and in opposition to the requested incorporation. The BOCC also received a considerable amount of information which was not submitted for support or in opposition to incorporation, but which pertained to the 17 factors the BOCC will consider as it makes its decision on incorporation. These factors are noted below.

This memo categorizes, by each factor, the materials in the public record.

The record materials came to the BOCC during four periods of time:

1. Between the time of the April 9, 2021 submission of the incorporation petition and June 11, 2021. The “pre-hearing” period.
2. During the June 23, 2021 public hearing held in Paola.
3. Between June 23 and June 30, 2021. The “post-hearing” period.
4. Between July 1 and September 22, 2021, the BOCC received numerous documents and presentations from experts on subjects relevant to the 17 factors, including KDHE, the Miami County Sheriff, Appraiser, Planning Director and Road and Bridge Director. Presentations were also received from a number of consultants and from officials from area cities, among others. The BOCC did receive, at its request, a few follow-up documents from area cities and the County Appraiser between September 22 and October 6, 2021.

This memo attempts to identify all the public record material posted on the County’s website. A general reference is made to the hundreds of emails from the public and other interested parties that were submitted. Extensive excerpts from those emails were provided the BOCC at its August 4 study session, but such emails are posted on the website in their entirety.

As all presentations at BOCC study sessions, and the June 23, 2021 public hearing, were video recorded and posted on the County website, those videos are listed below only in a few instances.

The 17 factors the BOCC will apply are as follows:

FACTORS FOR BOCC CONSIDERATION

State law (K.S.A. 15-121) sets out 14 factors that the Board is to consider when determining the advisability of incorporating territory as a new city. Those factors are:

- 1) Population and population density of the area within the boundaries of the territory;
- 2) Land area, topography, natural boundaries, and drainage basin;
- 3) Area of platted land relative to unplatted and assessed value of platted land relative to assessed value of unplatted areas;
- 4) Extent of business, commercial, and industrial development;
- 5) Past expansion in terms of population and construction;
- 6) Likelihood of significant growth in the area, and in adjacent areas, during the next ten (10) years;
- 7) The present cost and adequacy of governmental services and controls in the area and the probable effect of the proposed action and of alternative courses of action on the cost of adequacy of local governmental services and regulation in the area and in adjacent areas;
- 8) Effect of the proposed action, and of alternative actions, on adjacent areas, and on the local governmental structure of the entire urban community.
- 9) The size and population of any existing city within five miles of the territory;
- 10) The (existing) city's growth in population, business and industry during the past ten (10) years;
- 11) The extension of the (existing) city's boundaries during the past ten (10) years;
- 12) The probability of the (existing) city's growth toward the territory during the ensuing ten (10) years, taking into consideration natural barriers and other reasons which might influence growth toward the territory;
- 13) The willingness of the (existing) city to annex the territory and its ability to provide city services in case of annexation;
- 14) The general effect upon the entire community, should there be additional cities in the area; all of these and other considerations having to do with the overall orderly and economic development of the area and to prevent an unreasonable multiplicity of independent municipal governments.

In addition, the BOCC has identified three of its own factors:

- 15) What plans do the petitioners have for the city to provide municipal services, such as law enforcement, and for public infrastructure, such as street improvements and maintenance?
- 16) Are there alternatives to incorporation that would achieve the objective of petitioners to "preserve their large lot residential and agriculture-friendly way of life while accommodating appropriate new development"?
- 17) What are the likely impacts upon Hillsdale Lake and its watershed from:

- a) annexation followed by expansion of LPKC into Miami County
- b) continued low-density residential and ag use of land in the Golden area

RECORD MATERIALS; GOLDEN INCORPORATION

1) Population and population density of the area within the boundaries of the territory.

Population:	776
Land area:	5,358.41 acres
Population density per acre:	.14
Population density per 10 acres:	1.4
Population density per sq. mile	86

- 3. "June 23rd Rebuttal from Jennifer Williams", email, Williams, 6/30/21

2) Land area, topography, natural boundaries, and drainage basin.

Land area:	5,358.41 acres
Topography:	Predominantly cropland, pastures and woodlands, on level to gentle rolling hills
Natural boundaries:	Hillsdale Lake and surrounding federal and state land
Drainage basin:	Hillsdale Lake Watershed, with total acreage of 92,000 acres. Entire area of Golden is in this watershed

Source:

- 2. "Proposed City of Golden Planning/Zoning Report", Reeves, presented 8/18/21

3) Area of platted land relative to unplatted and assessed value of platted land relative to assessed value of unplatted areas.

Platted land:	1013 acres
Unplatted land:	4377 acres
Total:	5390
Assessed value of platted land:	\$5,983,405
Assessed value of unplatted land:	\$8,305,915
Total:	\$14,289,320

Source:

1. Petition for incorporation, with certified information provided by Miami County Appraiser Justin Eimers
2. Email "2021 Values-Platted vs. Unplatted", Eimers, Miami County Appraiser, 10/4/21

4) Extent of business, commercial and industrial development.

The BOCC understands this factor to be referring to development within the area of the proposed incorporation.

The record shows there to be very little non-agricultural, non-residential development within the approximate nine square miles of the Golden area. Further, the record shows that the County's comprehensive plan and zoning does not anticipate or accommodate such development at this time.

2. Lenk memo, MARC forecasts for population and employment, 7/1/21, presented 9/8/21
3. "MARC Forecast of Population and Employment", Kaup memo, with attachment, presented 9/8/21

5) Past expansion in terms of population and construction

Population increase, 2010-2020, in Golden territory:	_____
Number of building permits for new residences issued 2010-2021 in Golden territory:	20

6) The likelihood of significant growth in the area, and in adjacent areas, during the next ten (10) years

The consensus understanding of the BOCC is that "area" means the proposed Golden territory, and "adjacent areas" means the area within five (5) miles of the proposed Golden territory.

16) Are there alternatives to incorporation that would achieve the objective of petitioners to "preserve their large lot residential and agriculture-friendly way of life while accommodating appropriate new development"?

Petitioners and other supporters of incorporation told the BOCC that preserving their “rural way of life” or the “rural character” of the Golden area was their objective, and that incorporation was the means they selected to achieve that end.

The BOCC undertook to identify whether there were any alternative means whereby the objectives of those citizens could result without incorporation.

- 17) What are the likely impacts upon Hillsdale Lake and its watershed from:**
- a) Annexation followed by expansion of LPKC into Miami County**
 - b) Continued low-density residential and ag use of land in the Golden area**

This factor was chosen by the BOCC due to the importance it sees of Hillsdale Lake and its watershed as a primary public water supply source and its value as an economic and natural resource.

The BOCC received considerable material some of which was conflicting, especially with regards to the effect of industrialization in the watershed.
